

Supplementary Reading List

A number of people have requested a reading list - compiling one is very difficult; there are so many books that could be included and new ones coming out all the time. Book preference is an individual thing but luckily there is something for everybody. We have picked out a limited number of books from a variety of genres and divided them between two age groups, inevitably there is bound to be an overlap.

Years 5 & 6			
Title	Author	Title	Author
