Gresham's has much to offer pupils who have outstanding talent and potential. The scholarships available are Academic, Art & Design, Music, Drama and Sport. All children, whether already at Gresham's or applying from outside of the school, take the same assessments. Children who win scholarships are expected to be leading pupils in their fields, to work hard and to contribute fully to the life of the school.

Year 7 scholarships are awarded for Years 7 and 8 at the Prep School. Scholarships are worth **up to** 10% of the fees. Scholarships may be augmented by a means-tested bursary. Scholarship candidates must be registered for entry to Gresham's Prep School and the registration fee must have been paid before the candidate is entered for a scholarship.

All scholarship awards are made at the discretion of the Head. If a candidate is eligible for a bursary and they gain a scholarship, the bursary will be reduced by the value of the scholarship. Sibling discounts are replaced or reduced by a scholarship.

Scholarships awarded are subject to conditions, which include the following:

- The pupil who is the subject of an award is required to work hard, to contribute positively to the life of the school, to be a credit to the school and to set a good example to other pupils. The pupil must adhere to the school's required standards of conduct and progress.
- Parents are required to support and encourage the pupil to achieve the purposes of the award, treat members of the school community reasonably and to uphold the aims and the good name of the school, complying with the school's Terms and Conditions.
- The value and terms and conditions of the award shall remain confidential to the parents and the pupil and the school.

## ACADEMIC SCHOLARSHIPS

Academic Scholarship candidates will sit written Mathematics and English extension assessments (in addition to the standard online entrance assessments for external applicants). The academic scholarship exams are rigorous and for pupils who have a keen interest in academic extension with a history of excellent attainment in both Mathematics and English. For all candidates, please provide supporting information that you wish to be considered alongside the assessment data that we will review. This is to be submitted on the Supporting Information Form sent alongside this document.

The Mathematics examination assumes full current curriculum knowledge and understanding and therefore assesses reasoning and problem-solving skills. In English, pupils will be assessed with a reading comprehension task followed by a creative writing task. For more information or to discuss your child's suitability for the process, please contact the Head of Teaching and Learning, Mr Lloyd Stephenson ([lstephenson@greshams.com](mailto:lstephenson@greshams.com)).

## ART AND DESIGN SCHOLARSHIPS

We are offering Art and Design Scholarships for pupils with a genuine passion for creativity. These scholarships are aimed at pupils who show exceptional talent, dedication, and potential in their chosen field. Pupils must be able to discuss their work, inspirations, and creative process. They will be asked about their passion for the subject, their future ambitions and to discuss their portfolio. Applicants will have an interview with the Head of Department, and complete practical tasks to showcase their skills.

### What we are looking for:

We seek pupils who are passionate about creating and designing. You should be able to think creatively, solve design challenges, and communicate your ideas effectively through sketches and written descriptions.
